

LAHAYE Elise

Web Developer

I've been working as a Front-End / Angular web developer since a year and half and I'm now looking for a new job **preferably Front-End Angular or React** but am also open to any suggestions including fullstack Node.js.

About me

Paris, London, Tokyo, Marseille and now Montréal, I'm coming in a new city to experiment a new way of life. Converted to web development 2 years ago, I worked mostly with Angular2+ but I'm open to all Front-End jobs. If you're looking for a motivated developer, feel free to contact me.
